Russ Morgan, leader of the orchestra which is heard over the mbia network on the "Johnny Presents" program, is one of the hardest workers on the program, as these pictures would indicate. At the top we see industrious Russ tooting a trombone and going over the music during rehearsal. A bite of "ham and" follows, and finally we see Conductor Morgan swing into real action when the "On the Air" sign lights up. "Johnny Presents" is heard over the Columbia network every Saturday night.

## Yanks Are Tops; the Babe Knows

By PAT ROBINSON International News Service

Sports Writer NEW YORK—Take it from Babe Ruth, the Yanks are by all odds

the greatest club in baseball. "They're in a class all by themselves," said the big fellow, whose 60 homers are still a season's target for the Greenbergs, the Yorks

and the Foxxes to shoot at.
"But," he hastened to add, "take the Yanks out of the American league and you'll find the rest of the clubs stack up about even with the National league clubs.

"Say, if Gomez and Gehrig were having good years, the Yanks would be 20 games out in front by now. They'd do the same in this league, too. They got too much power.'

The Bambino-now very proud of what he has accomplished since joining the Dodgers as a coach, went up to take his cut in batting practice, failed to knock one out of the lot, and came back steaming, mentally and physically.

How about the rumor that he was going to start pinch-hitting

again?
"Nothing to it," he growled. "I've done more than my share of hitting already. Some young pitcher with a good fast ball might sock me on the head before I could duck. I'm getting too old for that stuff."

Well, could he tell us who was ne most improved ball player he'd seen around this year?

But he went into a slump and until he banged out a trio of round trip wallops Friday he had connected for only one homer this month.

"I can't explain my slump," Greenberg said at that time "When I try to pull the ball to the left I don't get a good piece of it. Most of my power seems to pre-vail when I hit to center and right and that handicaps my chances of breaking Ruth's home run record I guess I'll just have to be content with singles."

Greenberg is a right-handed hitter with long arms. He has tre-mendous wrist power. There has ceen considerable discussion about whether he guesses with the pitch-er. Once the experts credited Del Baker, now Detroit manager who is adept at stealing signals, with much of Greenberg's success by flashing him what pitches were coming. Greenberg laughs at these assertions and points out that some of the greatest days he ever had at St. Paul fans today believed between because of illness.
