State Gives Start to '41 Garbo 'Romance'

MILWAUKEE —(U.P.)—Otto R. Hauser, secretary of former mayor Daniel W. Hoan, declined Saturday to comment on the status of personal relationships between his brother, Gaylord, and film actress Greta Garbo, although he confirmed that the two were Christmas guests at his home here.

"Any information on their personal affairs should come from them," Hauser asserted.

The famed film star's presence in Milwaukee was revealed Saturday by the Milwaukee Deutsche Zeitung, German daily newspaper.

Gaylord Hauser is known as a health diet specialist and frequently has been mentioned of late as a friend and companion of Garbo. Their names have been linked romantically, but without confirmation.

Hoan's former secretary said that Garbo and his brother left here for New York, where he understood his brother had some business, and that they planned to return to Hollywood. Gaylord Hauser is a resident of Beverly Hills, Calif.

Presence of the two in Milwaukee was a closely guarded secret, and they did not chance recognition to avoid publicity.

Municipalities Reduce Costs 31 Per Cent

Local governments in Wisconsin have reduced their normal expenses of operation by 31 per cent in the last 10 years, a writer declared today in the January issue of The Municipality, official magazine of the League of Wisconsin Municipalities.

Recent discussion has indicated some persons will think it essential to cut expenditures in local governments because the national defense program will be costly, but expenditure cuts should come in state government costs rather than local, if the relative economy measures of the two kinds of government are considered, the article indicated.

During the last 10 years, the state government has been operated on an unbalanced budget, yet the local governments have reduced their normal expenses nearly a third, have lowered assessed property valuations, and have reduced their outstanding indebtedness from $92,800,000 in 1929 to $61,800,000 in 1939, the article pointed out.

Assessed valuations were reduced from $2,434,073,537 to $2,212,617,167 for Wisconsin cities, and from $296,405,383 to $279,162,402 for Wisconsin villages, despite three factors which normally would cause increased valuations—1) many new cities and villages have been incorporated; 2) large areas have been annexed to the corporate limits of cities and villages, and 3) there has been a material increase in urban population as shown by the 1940 census.

◇ ◇ ◇

All this has been done in spite of financing a large share of the cost of social security in Wisconsin, the author of the article emphasized.

"If these new and unusual social security are deducted expenditures for relief and from the local financial figures, it is clearly apparent how much local governments have reduced expenditures for their normal activities," according to the writer.

Excludng municipal and county relief and social security costs, the expenditures were shown to have been reduced from $103,000,000 in 1929 to $70,700,000 in 1939, the article said.

Huge Bomber Successful, Army Says

DAYTON, Ohio—(U.P.)—Capt. O. P. Benson, chief of the aero medical laboratory at Wright field, said Sunday night that the 3,000-mile test flight of the four-engined B-17-C army bomber was "successful in every sense of the word."

The huge bomber took off at 7 p. m. Saturday and landed at nearby Patterson field at 10 a. m. Sunday after completing the longest non-stop non-refueling flight in the history of the army air corps.

The flight as planned, called for a minimum altitude of 15,000 feet, but 120-mile-per-hour cross winds forced the crew to fly some of the time at about 7,000 feet, it was reported.

The bomber flew a triangular course from Patterson field over Memphis, Tenn., Shreveport, La., Dallas, Texas, to El Paso, Texas and return.

The flight's purpose was to provide data on the effects of long range high-altitude operations on personnel and equipment, officials said.

Crew members wore special high-altitude equipment and used oxygen about half the time.

Fond du Lac Police Take Lohmiller

Sheriff Edward Fischer said Saturday that he had turned Earl J. Lohmiller, 56, on probation here for obtaining money under false pretenses, over to Fond du Lac authorities, who, the sheriff said, had warrants for him on bad check charges. Lohmiller drew a deferred sentence here on a charge of obtaining $22.50 in connection with sale of cheese display cases.

One of Last Liquor Mobsters Found Slain

IRVINGTON, N. J.—(U.P.)—William Weisman, 44, one of the last of the liquor mobsters of prohibition days and one of the few leaders to come unscathed through its machine-gun wars, was found slain in an automobile Saturday in this peaceful community.

The north Jersey bootlegger's body was wrapped in a blood-stained bed sheet on the floor of a parked sedan. He had been shot twice, once in the head behind the right ear and in the right side of the neck. Police said Weisman had been dead about eight hours when they found his body shortly before noon.

Weisman had been living at Newark and in the past seven years had lapsed into relative obscurity. But in the early 30's and in the hey-day of the late Dutch Schultz and other liquor gangsters who over-ran north Jersey he was a notorious figure. He was put on the spot once and narrowly escaped a rain of bullets that spattered his speeding car.

Dazed Motorist Leads Police to Dead Companion

CHAMPAIGN, Ill.—(U.P.)—The incoherent story of Joseph Hawker, 23, dazed and suffering from exposure after spending a night beneath a wrecked automobile, led authorities Saturday to the body of David Lawrence Breen, 23, Ivesdale farmer, who was killed in the crash.

The accident occurred in a ditch near the Champaign-Piatt county line Friday night as the two were returning from a visit to Monticello.

It was discovered after Hawker had dragged himself from the wreckage and crawled to the nearest farmhouse.
