

Dramatic Alibi Expose To Be Made By "Gang Busters"

Harry Carey And Lou Holtz Scheduled As Guests On Kate Smith Hour Via WABC At 8 P. M. Friday

The thwarted efforts of two young criminals to establish what they believed would be unbreakable alibis will be revealed in the dramatization of the case when "Gang Busters" goes on the air over WJZ Friday at 9 p. m.

Kate Smith will present one of the screen's best loved stars, Harry Carey, and one of Broadway's best known comedians, Lou Holtz, as headliners on her variety hour broadcast over WABC at 8 p. m. Other featured attractions will be The Modernaires, vocal quartet, and The Three Suns, novelty instrumental trio.

Rosita Moreno, lovely Mexican songstress and actress will appear as guest artist on Al Pearce's Latin American program 7:30 p. m. WABC. Miss Moreno, beautiful and talented, has recently returned from a personal appearance tour of South America, presenting songs and dances. On the bill also will be Rafael Mendez, Mexican "hot trumpeter" who has delighted Pearce audiences for several seasons with his excellent musicianship. He will play "Amour Amour."

Anne Shirley, assisted by a cast of Hollywood notables, will star in a radio dramatization of the film, "Four Jacks and a Jill" on the Hollywood Premiere program Friday, at 10:00 p. m. via WABC. Luella Parsons will commence and Felix Mills' orchestra will play.

In spite of old—and young—wives' tales, some—where there must be a perfect husband. Such at least, is the wishful thinking of Uncle Walter (Tom Halling), proprietor of "Uncle Walter's Dog

House," heard Fridays at 9:30 p. m., over WEA. Tom has, therefore, decreed "Perfect Husband Night" as a bi-monthly "Dog House" feature, beginning Friday.

TRAFFIC FLOWS ON MISSISSIPPI TO NEW RECORD

BURLINGTON, Ia., Oct. 24 (UP)—Prosperity note: The volume of traffic tonnage on the upper Mississippi river is setting new records this year.

The total for the season, up to Oct. 1, was 1,973,378 tons, compared with 1,510,776 for the same period of 1940. The increasing importance of the Mississippi in commerce is apparent in the fact that the gain of 462,602 tons is greater than the entire tonnage for a full season a few years ago.

Col. Clinton W. Ball, district engineer, estimates that the total tonnage for 1941 will approximate 2,500,000 tons.

September traffic on the river set a new record, with 555,068 tons, compared with 522,167 tons in September, 1940.

The major part of the shipments upstream is coal and petroleum, while traffic downstream largely is grain.

SEES GREAT AREA OF PROSPERITY WHEN WAR ENDS

BERKELEY, Cal., Oct. 24 (INS)—Contrary to widely expressed opinion, the belief is held by Prof. Charles Edward Winslow, formerly of Yale university, that unequalled prosperity and opportunity will arise from the present European conflict.

Winslow, lecturing this fall at the University of California, declared:

"Assuming that Hitler is defeated, the young people of today can look forward to great opportunities and a very exciting and promising world in which the United States must obviously for its own sake play a leading role."

An international authority on public health and housing problems, Winslow has studied the populations of Europe, Asia and Latin America in his work as medical director of the League of Red Cross Societies and a member of the Health Committee of the League of Nations.

DARK SKIES AND SNOW ON ROAD TO MOSCOW

Leadens skies, dark warning of the Russian winter now beginning, are fateful backdrop for German tank rumbling through the snow-sprinkled streets of Vyazma, on the road to Moscow. Note shells of buildings, left in ruins by retreating Russians. Picture was radioed from Berlin.

GOOD JOKE FROM GOOD NEIGHBOR

Senator Don Nicolson Costa Mendez of the Argentine chamber of deputies passes on some South American good humor to good neighbor Rep. Sol Bloom, chairman of House Foreign Affairs Committee, at luncheon honoring visiting Argentines in Washington.

NEW X-RAY TUBE BEING USED TO TREAT CANCER

LOS ANGELES, Oct. 24 (INS)—An X-ray tube generating 2,000,000 volt rays for treatment of cancer—which scientists claimed could be duplicated only by missing a large part of the world's radium supply in one spot—has been placed in operation at a newly organized cancer research and treatment center.

Rays of the new machine are so powerful that the treatment cham-

ber has been constructed of three-foot concrete walls and lead shields to protect physicians and nurses from dangerous cumulative doses of escaping rays.

The Los Angeles apparatus is twice as powerful as any other similar machine in the world. Dr. Seely Mudd and Dr. Clyde K. Emery, noted cancer researchers, propose to increase the ray intensities to more than 3,000,000 volts in the future with freon gas.

Cadets at the U. S. Military Academy at West Point are forbidden to marry or to raise mistresses.

DEFENSE PUSHED BY 36 BUREAUS

Seldom Mentioned OEM Still Most Important Cog In Program

WASHINGTON, Oct. 24 (UP)—Government statisticians have turned up the following information on the various agencies spending the American taxpayer's dollars in the interest of national defense:

There are about 36 offices, departments, bureaus, agencies and sub-agencies involved in directing the defense program.

About a half dozen of these numerous offices represent permanent establishments, such as the office of the President and the departments of war, navy, interior, agriculture and treasury.

The other 30-odd are strictly of a "defense" nature, having mushroomed with the emergency. Most of them are destined to die with its termination.

COLLEGE TURNS TO FIREWORKS, BANS BONFIRES

ALBUQUERQUE, N. M., Oct. 24 (UP)—There still will be a "hot time in the old town" the night of Oct. 17—as usual; but it won't be as expensive to the University of New Mexico as usual.

This year, for the first time, the university asserted that a planned fireworks display will replace the traditional school "homecoming bonfire," which, in the past, has been fueled chiefly with pieces of property—fences, porch chairs and the like—that the university had to make good to irate owners.

We hope to keep the spirit up to the usual fiery pitch without the usual destruction of private property," said Tom Popejoy, controller. "It will only cost \$100 to buy the fireworks, and that amount is far less than the normal outlay for replacement of articles pitched into the annual bonfire by over-reckless students."

Last year two boys suffered broken ankles in wood-gathering forays.

BROTHERHOOD TO MEET

DELPHOS, Oct. 34—A delegation of Methodists will go to Bluffton on Friday night where a dinner-meeting of the Allen-co Methodist Brotherhood will be held. There will be an interesting program following the supper.

ACCUSED BOOTLEGGER ANNOYED AT SHORTAGE

TULSA, Okla., Oct. 24 (UP)—A police officer who aided in the capture of a bootlegger's car drove it to the station after the arrest.

In taking inventory of its contents, officers found 17 pints of whiskey.

"Hey," said the accused dealer, "something's wrong — I had 54 pints in there."

Chief of Detectives George Blaine said he had "reprimanded" the officer who brought the car to headquarters.

You Want To Try The

New Vitamin B₁ BREAD

PLEZOL

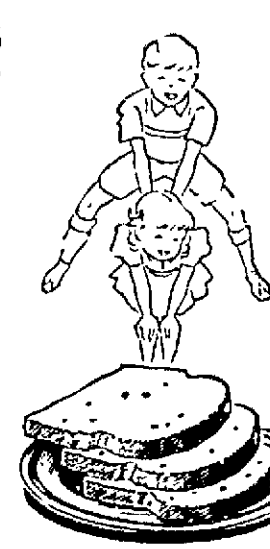

MASTER Loaf

"IT TASTES GOOD ANY TIME"

Say the Children—

... and Mother says it's better for us.

Smart mother—she knows what Vitamin B₁ means to growing children. That's why she always keeps plenty of Master Loaf handy for the whole family to enjoy. Even Dad has the Master Loaf habit, too. There's more spring to his walk since he started. Why not try Master Loaf today? You'll like it.

CAPTAIN VEXED BECAUSE BOAT WOULDN'T SINK

BOSTON, Oct. 24 (INS)—The captain was worried because his ship would not sink.

Captain C. J. Pope, R. N., was relating his experiences on the armed merchant cruiser, California, in Boston for a routine overhauling.

"A few months ago we came upon a German freighter," Captain Pope said. "Her crew did a poor job of scuttling her and we placed a prize crew on board."

"For three days they fought to keep the freighter afloat. For three days the only thing the German captain would say was 'Is she gone yet?'"

"On the third day," Pope continued, "we gave up the fight and the freighter slid under the waves. That German skipper was the happiest man you ever met when we told him his ship was gone."

VESSEL BECAME A PRIZE

The California was luckier in another brush with a Nazi merchant vessel. This was the "Bossum" whose crew was too slow with the sea cocks and she became a prize.

The Bossum was sailing under the alias "Bossum" flying a Dutch flag.

Inasmuch as Bossum didn't even

appear in the Dutch registry, Captain Pope ordered her to halt.

A prize crew saved her but later was forced to abandon ship when a German torpedo set her on fire. A week later the prize drifted ashore and after some repairs was placed in British service.

NAMED MODERATOR

KENTON, Oct. 24 — News has been received here that Dr. Ralph B. Hindman, former Kenton resident, has been elected moderator of the Presbyterian synod of New York, at a gathering at Niagara Falls. Dr. Hindman's father formerly was pastor of First Presbyterian church here.

Lobsters have 20 pairs of limbs, some of which are used in chewing up food.
