Understanding CHILDREN

By ANGELO PATRI

Children of early age are forever near their parents' heart at home. Here is one of the best for you for reasoning, wisest to turn to parents to do so will.

Many is four years old, not only child. He is very bright for a so early year, emotionally. Time is to be watched for these symptoms to appear it would be best to see the eye specialist. There is reason to fear the strabismus.

This is serious to be neglected. He talks very well and we have had language is to grow, we try to help him with that. The other day I the answer we had that. We do not to talk to him of his deficiencies. We are afraid he may grow up to be a delinquent. But what can we do?

A child like this is not a rare child. For example, the [illegible] often has to help with [illegible] and the [illegible] is [illegible] [illegible] [illegible]
